

ANNUAL REPORT

2019-2020

Social Awareness Institution (SAI)

At :Divine Nagar,PO:Naya Bazar Cuttack -753004,Odisha

FROM THE SECRETARY DESK.....

Dear Friends, Good Greetings to all my benefactors and public at large. It gives me an immense pleasure of sharing our social awareness institution annual summary for the financial year 2019-2020. This year has been a vintage year for me as well as for the whole team of our NGO due to their determined decision in fulfilling our mission, vision and goal along with the help of funding agencies and supporters from local government, national and international agencies we are reaching at a new heights by serving our best in the sector of health, education and livelihood by providing skill training to the unreached and underprivileged area of cuttack, Nuapada and Balangir districts. SAI has been blessed with a panel of experts/specialists, development planners, peers community organizers and a team of young and dynamic professionals having expertise in multiple niches of socio economic market and action research. It has sets a model to the voluntary sector on the basis of its systems, procedure, transparency, accountability and credibility. With our satisfactory past reports we have been granted a new project by Odisha State Aids Control Society on the HIV AIDS project for migrant labours who are expected to be more prone to the dreadful disease. This year we have successfully completed the JICA project undertaken by OWSSB in spite of many significant challenges while managing the human resources practices across multiple cultures. SAI has made its efforts to give a clear picture of what been done in the report details.

I express my sincere thanks to the supporting Agencies like Action Aids, Government of India and Govt of Odisha, Collector and District Magistrates, All 4 district for kind support an encouragement. I am also thankful to the district and block levels officials who extended their co-operations to the organization in implementing the programme. The staff of the organization worked in the most adverse condition to make all the programmes of the organization a success. I am thankful to them and except that they will continue to work in the same vigor and enthusiast in the future. I am thankful to them. Last, but not the list I extent my sincere thanks to all those faceless persons who associated themselves with the organization at some point of time for the cause of social development. This message, therefore, is earnestly a communication of gratitude to all those who have always been with us on this journey of SAI.

ASHOK KUMAR HOTA,

SECRETARY

Activity 2019-20

URBAN PRIMARY HEALTH CENTRE

Introduction:-

Two no's Urban Primary Health centres (UPHC) one is at Choudwar city of Choudwar NAC & another one is at Jagatpur city of Cuttack CMC of Cuttack district are running & managed by Social Awareness Institutions (SAI). In Key Focus Areas in PPP mode with the support of OSH&FW Society under National Health Mission (NUHM). It is the explicit mandate of the UPHC to provide priority services to urban poor people, especially those in most difficult circumstances such as street and slum children, the aged, disabled, single women, unorganized workers in unsafe occupations, and survivors of violence. The UPHC not only integrate RMNCH+A services but also integrate all vertical disease control programs and non-communicable diseases program. Both the UPHC also work and cover the preventive, primitive and curative services.

Objectives of UPHC

- To provide comprehensive primary health care to the urban population in general and particularly the urban poor.
- To achieve and maintain an acceptable standard of quality of care.
- To make the services more responsive and sensitive to the needs of the urban poor.

Scope of work in the UPHC

OPD timing & Consultation: OPD services are providing twice in day i.e. (8.00 am to 11.00 am) in morning and (5.00 pm to 8.00 pm) in the evening. Free medical consultation provide to the patients in the OPD. With Provision of two no's observation beds in the UPHC.

CASE STUDY :

HYPERTENSION:- A Patient name Mayadhara Behera age 52 from Charigharia, Ward no.16 was suffering from headache and excessive sweating he was found of having BP 159/100 after knowing his BP he became more worried the doctors along with the nurses gave the psychological advice and with some medications and a regular monitoring electrolytes and creatinine according to medical advice.

ANTENATAL CARE:- ANTENATAL CARE (ANC)

Antenatal care is very strategy to improve maternal and infant health. However, survey data from antenatal mother it is recorded. A patient named Sunita Swain age 27 from munda sahi ward no.16 an antenatal mother(L4weeks)came to our uphc Kapaleswar with case of lack of sleeping pattern. She was very worried and anxiety about her health condition. According to her statement she was 14 weeks pregnancy and it was first time pregnancy. We gave psychological and moral support to the patient.

Targeted Intervention of Truckers And Migrants Cuttack

SAI-TI established as Learning site

On dated 16th August 2019 a team of MSW student from Salipur Autonomus College had a visit to our SAI-TI, Cuttack for learning about Organisation, Administrative structure and process of implementation of different activities in field level. They were also taken as exposure to our service linkage sectors and intervained field areas for understanding and get some practical knowledge. Previously also a team from Vedanta of sundargarh district came and have exposure visit for 3 days in our SAI-TI project.

Management of Trucker project

SAI-TI (Truckers) Project implemented for the year 2019-20 headed by Project Director Mr. Radha Mohan Behera assisted by Project Manager, M&E Cum Accountant, Counsellor, 2 Health Educators and 5 Peer Educators . SAI adopted following strategy in the year 2019-20 to get maximum output in Targeted Intervention on Truckers. Provide information services and behaviour change communication to increase knowledge of Truckers and motivate them to change the unsafe behavioural practices and to reduce their vulnerability. Create awareness of the target community about STI/RTI/HIV & AIDS.

Management of Migrant project

SAI-TI (Migrant) Project implemented for the year 2019-20 headed by Project Director Mr. Radha Mohan Behera assisted by Project Manager, M&E Cum Accountant, Counsellor, 5 Health Educators and 14 Peer Educators . SAI adopted following strategy in the year 2019-20 to get maximum output in Targeted Intervention on Migrant. Provide information services and behaviour change communication to increase knowledge of Truckers and motivate them to change the unsafe behavioural practices and to reduce their vulnerability. Create awareness of the target community about STI/RTI/HIV & AIDS.

Project Goal

At least 5000 truckers and 10,000 Migrants of Cuttack district practice safer sex and rate of new infection are reduced to 50% by the end of the year.

Objectives of the project

- To control High -risk behaviour of the target population.
- To identify the STI cases and treat them syndromically through static clinic.
- To increase health seeking behavior of the TG

Service and Linkages

Govt had created various infrastructures, facilities for various health related service, unfortunately many victims and sufferers are not aware about it and they are suffering a lot due to ignorance or consciousness to ask some others about it. Last project year our TI staffs establish their rapport and our Counselor counseled high risk suspected 3649 truckers and 5767 Migrants and referred to ICTC out of which 1884 truckers and 2994 migrants were tested. Out of the testing 2 Truckers and 5 migrants were tested positive.

SPECIAL ACHIEVEMENTS

SAI TI succeeded to register 5231 Truckers and 7459 Migrants and provide basic knowledge about STI and HIV/AIDS.

Current year strategies:-

The following strategy will be adopted in the current phase to get maximum outreach of the proposed TI intervention.

- Awareness of the target community about STI/RTI/HIV/AIDS by creating pressure groups through stake holders of different TSL area and contact lots of Big/small companies.
- Fact based information sharing with target community as well as with stake holders.
- Condoms made available, accessible and affordable by creating more outlets at different halt Points and congregation points.
- Creating convergence approach to make the sustainability of project.

Project Monitoring Committee

Formation meeting of Project Monitoring committee of SAI-TI

- The PMC will act as Advisory Body for the Targeted Intervention Project.
- PMC will review the programme & finance activities undertaken by the project as well as the CMIS Reports sent to OSACS.
- PMC will suggest corrective measures for issues raised during program implementation, mid course intervention to address gaps identified and suggest steps for the overall of the project to ensure smooth intervention in the designated area with the HRGs.
- PMC will review the frequent staff turn-over & suggest measures for retaining trained & experienced staffs.
- Review the performance of the staff periodically & ensure that each staff is working as per the job responsibilities assigned to them.
- Identify the challenges faced by the Project and suggest measures for Advocacy, Networking and Linkage with other agencies for effective service delivery.

SHORT ACTIVITIES ON COVID-19 PANDAMIC

SAI-TI started its activities on the Pandemic situation of COVID 19TH from 26th March with its limited resources available during lockdown period implemented by Govt. Of Odisha. SAI-TI Team were covered the Truckers operational areas like Jagatpur, Manguli and New Malgodown TSL points lead by Project Manager and Counselor. Team distributes Masks, Dry foods and Dettol shops to several Truckers especially to helpers of trucks available at TSL areas. After that periodically Health Educators and Peer Educators were help some Truckers by providing Masks and Dry foods.

Challenges

One of the biggest challenges Social Awareness Institution faces is sustaining interest in its work in areas where HIV/AIDS is not visible. On the other hand, many truckers have been infected already but treatment is hindered by lack of resources both in the district health authority and among nongovernmental organizations.

2	Orientation of Parimal Volunteers on their role in increasing House Sewer Connections	2	2

SUMMARY OF OBSERVATIONS AND COMPLIANCES

Sl.	Observations by OWSSB	Compliances by Partner Agency
1	Resubmission of Inception report with defines the secondary data collection sources & follow-up action plan of activity.	During the month of February we had already submitted the Revised Inception report as per suggestion of OWSSB.
2	Reselection of School with in that areas where the sewerage line construction work is going on or would be take place under OISIP	During the month of February we had already submitted the Revised school list from ward no 42 to 55 excluding ward no 48 & 49.
3	Reselection of CMC Wards with in that areas where the sewerage line construction work is going on or would be take place under OISIP	During the month of February we had already submitted the Revised Ward list from ward no 42 to 55 excluding ward no 48 & 49.
4	Resubmission of Inception report with define the secondary data collection sources & follow-up action plan of activity	During the month of February we had already submitted the Revised Inception report as per suggestion of OWSSB.
5	There is less participation of Community Campaigner in WKS Meeting & only team leader is facilitating the session.	Actually now we are conducting the first entry level programme in all the community & in the WKS meeting the key person of the concern ward also present, Hence the maximum topic coverage by Team Leader but after gathering of two to three nos.

		Programme learning our community campaigner & Package co coordinator will facilitate the programme.
6	In WKS meeting agency should give more focus on Hygiene topic through recourses person.	Actually now we are conducting the first entry level programme in all the community as WKS interaction programme, Hence we give more focus on aim & objectives of OISIP, OWSSB, benefit of sewerage system. But during our second programme we give more emphasis on Hygiene topic.
7	Do not Mix the technical & engineering part in social development activity	We always careful about it ,In very beginning when we call the participants for meeting we clearly say them that the purpose of meeting is only to create awareness among the people, sharing the aim & objective of Jica assisted OISIP, the benefit of sewerage system, and to encourage the peoples participations. But in the meeting some person those who are leader of the community they put the technical question& show their interest to know the engineering aspect of OISIP Project.
8	The STP Video should edited because in the video honourable CM sir photo display, But now the election code of conduct is declared.	We edit the STP video as per the suggestion of OWSSB
9	The Briefing of SD& PA on the objective & benefit of sewerage system worth applauding. The Concerned recourses person of SAI should articulate the technical aspect of the project in more comprehensive manner	For more clarity on technical aspect in our monthly internal review we discuss the subject matter & in the meeting Social development Expert from E&PMC Mr. Bhanu Prasad Panigrahi was presented and facilitated the session. But in this context we are planning for a joint review meeting with OWSSB Officials.
10	Good participating by participants & arranged the event properly	
11	MAS Members became Aware about JICA assisted OISIP & its component	
12	The Meeting was well conducted the question answer session followed, Suggestion taken from members for further Awareness	
13	Very well organised & very good response observed from the participants of community. (Celebration of World Toilet Day at Community Level).	
14	Meeting was well conducted with all information related to Sewerage system in Cuttack city.

Achievement:

Till March 2020 of the project year (204) MSM & TG (14) HRGs and (311) FSWs were have been registered and provided TI services. In the year 2019-20 ,475 HRGs (both MSMs, TG and FSWs) had been reached out through the one to one contact. TI, SAI had organized 108 Hotspot Meetings in the operational area to share the information with the HRGs and those meetings were participated by 1138 HRGs. Apart from that 24 DIC meetings has been organized in the DIC to discuss on various issues related to the HRGs and those meetings were participated by 1138 HRGs representing the various hotspots. Project Manager, counselor and M & E cum accountant had received both induction and refresher training organized by OSACS/TSU. Altogether 28 Weekly Review Meetings and 12 Monthly Review Meetings headed by the PD were organized by TI, SAI.

Inter Project Link for the capacity building and mass awareness

Social Awareness Institution in partnership with **Actionaid** organized a three days capacity building programmers on Hindu succession Act and Social Security Scheme in which Advocate Judhistir Meher, the veteran Right to Food activist and member of the State Level Committee for Right to Food campaign facilitated.

The Peer Educators & Outreach Workers were trained on different social security schemes like Madhu Babu Pension Yojana, Mo Kudia Yojana, Indira Awas Yojana, Public Distribution system, ICDS, The Transgender (T.G) have created a SHG group with help of Social Awareness ,Targeted Intervention T.I Project for their Financial Support.

A street play troupe was formed among the Peer Educators & Outreach Workers and they performed street plays during Bike rally of the Action aid supported project and created awareness on migration and risk of migrant labors towards HIV infection.

Outcome /results (Tangible results):

- Increased awareness of the PEs and community.
- Increased access to services.
- Increased HIV testing in ICTCs
- Decreased stigma and discrimination

LINK WORKER SCHEME PROJECT AT NUAPADA DISTRICT

TARGET AREA:

A broad mapping was done in consultation with the District Health Unit, ICTCs, DSRC, RNTCP, CHCs and other secondary stake holders like PRI members, labor department, labour contractors etc. The 20 clusters were selected at an average of 5 villages in a cluster and 113 villages in total .

Human Resource Recruitment:

Only six Cluster Link Workers were changed and for the posts for cluster link workers advertisements were done in the form of posters in the villages. A panel consisting of OSACS officials/representatives of local health department and senior NGO staff selected the candidates through written and viva voice tests.

CAPACITY BUILDING:

Induction Training: It is a rule in Social Awareness Institution that induction training shall be given to the new staff within 15 days of their joining. In this context induction trainings were organized for the new CLWs in which they were oriented on Goal and objectives of SAI, its different policies, goal and objectives of Link Worker Scheme Project, OSACS, NACO and the basics of HIV , AIDS. They were also trained on the different reporting formats and their implications.

Refresher Training of Link Workers: Though was no budget refresher training of Link Workers was organized when new CLW were recruited in which the old and new Link workers were capacitated on the behavior change communication including body mapping, condom Promotion, and other basic knowledge of Link Worker Scheme (LWS) Project.

BEHAVIOUR CHANGE COMMUNICATION:

The 20 Link Workers in 56 GPs of the 5 blocks of the district listed out the HRGs and vulnerable population in their respective categories. There after they prioritize them with respect to vulnerability and started interacting with them. Their communication processes with the target group was one to one counseling, one to group counseling. Different IEC materials like charts flip books, stories and models were used to communicate different messages on prevention, care and support

COMMUNITY OUT REACH

To enable an enabling environment, the link workers, supervisors, DRPs discussed with different secondary stake holders like PRI members, ASHAs Anganwadi workers, village leaders,

SHG members regarding the vulnerability of the area and worked out plans to protect people from HIV infection, ensure elimination and stigma and discrimination, clear the myths and misconceptions, community care and support of the infected and effected by HIV.

REFERRAL AND LINKAGES

After the vulnerability assessment of the target groups they were referred to different service delivery centers like ICTC, PHC, TB centers, ART center. 11023 persons were referred to ICTC and Health/CBST Camp out of which 11023 were tested and 20 were found positive from 2no.Migrant , 14 no Other vulnerable and 4 no ANC . All persons were referred to ART center, Balangir. 17 PLHIVs were registered at the ART center and 17 of them have started taking ART drugs but 3no. PLHIVs were not register at the ART center .812persons were referred to the STI clinic,300No of screened for syphilis.

ACTIVITIES OF LWS NUAPADA

A) CONDOM PROMOTION

1. To make condom accessible and available, condom out lets were established in almost all the villages of the project area. 113out lets have been established. The outlets were mainly with the ASHAs, AWWs, betel shops, dhobis, wineshops.
2. 22870 pieces of free condoms were distributed to the High risk target groups.
5. Social marketing condoms were displayed and 4920 no pieces distributed to the target groups in different exhibition stalls to aware people about their availability.

B) PLHIV networking meeting:

The first Network of positives in Nuapada in the name of **JeevanDhara** was formed.

1. The first Networking meeting for the people living with HIV/AIDS was organized 16th May 2019 Khariar Office
2. 2nd networking was held on date 21th November
3. 3rd PLHIV networking meeting was held on date 7th January 2020
4. 4th PLHIV networking meeing on dated 18th March 2020 at SAI Project office , Khariar.

ACTIVIES DURING COVID 19

Impact Study of the IFCI Supported Initiative on Building Drought Resilience Villages through Water Conservation Measures in Nuapada district of Odisha

Implemented by SAI in partnership with ActionAid

Background:

SAI (Social Awareness Institution) is a long-term partner of ActionAid and it has been working in Nuapada districts of Odisha. The organisation is based at Nuapada and has been working on with the rural communities along with the most marginalised communities like Dalit, Adivasi. SAI & ActionAid with the support of ICFI Foundation have renovated the existing traditional water harvesting structures and water sources like tube wells and wells as part of the measures for drought mitigation and ensuring availability of water for the rural communities. A team of two engineers namely Bhutesh Meher (Consultant to MSME Dept, Govt. of India, New Delhi)& Tamradhwaja Majhi (Junior Engineer, NAC, Khariar) had conducted the technical audit of the structures. The organization started working intensively in five villages of Boden block to develop drought resilience amongst the community in Partnership with Action Aid with financial support from IFCI to address the following issues;

- Water crisis: through water conservation measure to address the problems of depleting ground and surface water that would ensure food and livelihood security of the marginalized communities.
- Agriculture: by mobilizing community to revive traditional cultivation methods, which included revival of local seeds through gradual seed replacement, application of organic manure and revival of traditional pest control mechanisms etc.

The initiatives to address the above mentioned issues started in the month of May in following five villages of Boden block;

	Village	Gram Panchayat	Block
1.	Bhainsadani	Bhainsadani	Boden
2.	Bhuinpani	Nagpada	
3.	Chhuinpani		
4.	Jharnamal		
5.	Kholi		

Specific Purpose: to create irrigation and drinking water facilities through renovation and revival of existing water bodies / sources by utilising local skills to address the problems of drought and drinking water. The initiative was taken up in partnership with Action Aid and financial support of IFCI.

2. Activities, process and their impacts:

A Public Hearing On The Right Of Children By OSCPCR

At Sadbavana Conference Hall ,Nuapada.
 Action Aid As Knowledge Partner
 30 Cases Are Solved
 Resource Person 70 People From Various
 Dept Of Govt :-OSCPCR Sandhyabati
 Pradhan
 Members Of Commission – Sri Harihara
 Nayak
 Commission –Divya Saswati
 Executive Director ,Action Aid-Mr
 Sandeep Chachra

SuoMotu cognizance:Hearing of Cases in the Public Hearing in Nuapada

The Commission took suo motu cognizance in 15 cases of alleged violations of Right to Education and Child Rights reported by media during and issued notices to the concerned authorities for reports.

Challenges:

The greatest challenge is the delay in payment of wages under MGNREGS. The work is measured in piece basis but payment is made on daily wage basis for which proper muster role is not maintained resulting in delay in payment. Advocacy required at the national level for the payment of wages on piece work basis.

JSS JAN SHIKHAN SANSTHAN, BALANGIR

The JSS Balangir is endeavoring to take up programmes with the objectives of achieving development in socio-economic, cultural and educational fields. During the period, as many as 80 nos. of training programs which includes curriculum under NIFT, DAE, and MES course were conducted. Lectures, distribution of pamphlets, street plays, International Day celebrations, competitions and participating in exhibitions is always a part and parcel of the training programme which enable the beneficiaries to widen the range of knowledge. The total number of 2000 beneficiaries were covered under the programme. The target groups for JSS Balangir are clearly given in the guidelines issued by the Govt. of India. They include socio-economically backward and educationally disadvantaged groups of urban/rural population such as men, women and youth, employed, self-employed, neo-literates, prospective workers and their family members as well as unemployed youth. However, priority to be given is to adult neo-literates, semi-literates, SC, ST, Women and Girls, oppressed, migrants, slum/pavement dwellers and working children.

In course of time, a number of administrative orders have been issued by the Skill India with regard to the target groups. Accordingly the priority target groups are SC, ST, OBC, Women and Muslim minorities. From the below table it is clear that females have been given priority in the vocational skill development programmes organized by the JSS Balangir. However, it may be appropriate that coverage is consistently increased year after year instead of more coverage.

Beneficiaries In Vocational Programmes

Sl No.	Beneficiaries	As Per Action Plan	Completed
--------	---------------	--------------------	-----------

		Male	female	Total	male	female	total
1.	Beneficiaries in vocational courses	370	1436	1806	369	1433	1802
2.	Beneficiaries covered in activities				311	1411	1722

From the below table it is clear that females have been given priority in the vocational skill development programmes organized by the JSS Balangir. However, it may be appropriate that coverage is consistently increased year after year instead of more coverage.

Educational Status Of The Beneficiaries In Vocational Courses

Sl.No	Category Of The Beneficiary	Total
1.	Non literates	9
2.	Neo-literates	60
3.	Rudimentary	826
4	School drop outs	911
	Total	1806

From the given table most of the beneficiaries have studied till standard 8th which means they are not so illiterate but can be able to make out their own needs to create a bright future ahead.

Social Status Of The Beneficiaries In Vocational Courses

Special achievements in the reporting year

Achievements / Impact:

- The programme is increasing in scope and plans to continue expanding through grassroots efforts throughout Balangir District.
- The programme has resulted in an increase number of women self-employed in the district.
- Health promotion campaigns, on issues such as hand-washing, reduce pollution drive, open defecation free, and immunity vaccination awareness; have reduced the outbreak of disease among scheduled tribes.
- Beneficiaries have gained knowledge with regard to laws and their rights through the life enrichment education.
- Women beneficiaries have started realizing their strength & abilities and ready to step out of their home, contributing to the success of their home and their entire society.

Special Activities:

- Awareness Campaign related to Swachhta
- Reduce Pollution Drive (No Plastic Day) campaign
- Awareness Campaign on Open Defecation Free
- Reuse of Waste Material
- Tree Plantation
- Paper Bag Making/ Reuse of Waste among beneficiaries
- International Women's Day

TARGETED INTERVENTION PROJECT, TITILAGARH

DIST – BALANGIR

TARGET POPULATION and OPERATIONAL AREA:

The Target population of TI, SAI Titilagarh has been increased to 900 HRGs with 350 MSMs, TG 100 and 450 FSWs. Hence, the operational area was confined to Balangir, Turekela, Muribahal, Belpara and Titilagarh Blocks only. The TI has 24 hotspots altogether scattered over these 4 blocks.

A. OUT REACH ACTIVITIES:

1. BEHAVIOUR CHANGE COMMUNICATION (BCC):

2. HOTSPOT MEETING:

In last one year 102 Hotspot meetings were organized in the field and 1282 HRGs had participated in the decision making process.

3. DIC MEETING:

DIC was generally a place of recreation for the HRGs. They come here to have fun, play or to take rest. At DIC level a DIC Committee has been formed consist of 14 members who represents the different hotspots. Every month a DIC level meeting was organized with the committee members. Till March 2020 TI, SAI had facilitated 24 DIC level meetings which were participated by 492 HRGs.

B. TI SERVICES:

As per the NACO guideline TI was to provide the three basic services to the HRGs free of cost to prevent the new infection and halt the epidemic of HIV and AIDS in the area. They were as follows:

1. ICTC SERVICES: For the year the target of the TI for the HIV test in the ICTCs was 1380 and the TI had achieved 1250 no. of testing till the end of March 2020 which was 76%. Though the rate of testing was less yet 6 persons were found as HIV Positive which was a great achievement of TI.

2. STI MANAGEMENT SERVICES:

The TI had identified 4 PPPs in the operational area and MOU had been also signed to provide STI clinical services to the HRGs both FSWs and MSMs. And till March 2020 the referrals cases to PPP clinics were 2686. Out of that 46 HRGs had received STI treatment, 216 had got PT, 2188 HRGs had received RMC, and 1250 HRGs had under gone syphilis testing so far. One is found positive. The achievement was 83% in the year.

3. Condom Services:

Altogether TI has 28 outlets spread all over the operational area like Balangir, Kantabanji, Muribahal, Belpara and Titilagarh. In the year TI had distributed 78599 pieces of free condoms (including the outlets) to the HRGs. 273 pieces of condoms were used for demonstration and re-demonstration.

4. Referrals and Linkages To Other Services:

Apart from the three major services the TI provides other additional services (such as linkage to ART Centre, BNP+ (DIC), CSC, RNTCP and 26 other government facilities) to the HRGs for their wellbeing.

❖ ART Centre, TI PLUS & CSC:

HRGs those who were found HIV positive were to be linkage with the ART Centre. Till March 2015 TI had referred 6 PLHIVs to ART Centre, Balangir. Out of them 4 HRGs were linkages with ART centre. At present 11 HRGs are on ART and 26 HRGs are on Pre-ART.

SAI had sent 5 PLHIVs to the CSC Balangir and got the better services and returned back to their home after a short stay in the CSC.

C .Counselling:

2228 HRGs had been given individual counseling and 64 families reached out for the family counseling. Out of them 910 HRGs received STI Counseling, 1512 received HIV/AIDS counseling and 6 HRGs received counseling for ART registration.

D. Community Mobilization:

Community mobilization was a major component of the TI project. The HRG community was scattered all around far and near in the rural area. Hence, they have no unity and failed to stand together even when their rights were often neglected or violated in the general society. So in order to organize them, SAI initiated the effort in 2011 and led the foundation stone of the CBO “SAMPARK”, an organization of the MSM HRGs of its operational area. The executive body members meet every month to discuss on various issues related to the community. SAI TI was always a supportive hand to the CBO, SAMPARK.

Apart from that 27 Hotspot Committees have been formed as one in each hotspot area. 1 STI Committees one in each PPP area and 2 DIC committees one each for MSMs and FSW communities have been formed. Such committees provide the HRGs a platform to express themselves freely without any hesitation or fear. It also help them to develop their leadership quality. The effort was undertaken by SAI absolutely to strengthen the community bond, develop capacity to such extend so that they could be self dependent even if the NGO withdraws itself from the field.

E. Enabling Environment:

Enabling environment means creating such an environment or condition that was suitable and conducive for the HRGs to lead a happy life without any fear.

The primary objective of such activities was to convince and motivate them to deal with the HRGs softly and empathetically and not cruelly even if they were caught red handed. So therefore, they won't hide and go for unsafe sex with their client. In that way the chance of vulnerability to HIV & AIDS can be minimized.

Activities: Keeping that objective in mind TI, SAI organized 102 Community or Hot spot meetings which was participated by 1221 members from the community and 4 stakeholders Meeting with the elected leaders of the Gram Panchayats ASHA, ANGAN WADI WORKER, Youth, and Autoandrickshaw pooler. The meeting was attended by 76 word members including the Sarpachs and the Samiti Members. They were oriented on HIV & AIDS and the vulnerability of HRG community. They were urged to join their hand with the organization and contribute their little deeds and be a part in the fight against that dreadful disease.

F. Human Resource related:

In a year SAI organized 10 in-house training programmes in the year 2019-20 respectively for the newly appointed TI staff. All the TI team (36 Members including PM, Counselor, ORWs and PEs) had participated in the training programme, Jintendra Pattanayak Regional Coordinator, PO TSU, PM SAI TI Were the resource persons. The participants were oriented on HIV & AIDS, TI Project, STDs/STIs and their doubts and misconceptions were clarified through the training programme.

Project Manager Mr. Pratayaya Ojha and M&E cum account had received the Refresher training while Counselor Mr. Kshirasindhu Rana had received both induction and refresher training from TSU OSACS Bhubaneswar in the months of February 2019 respectively.

G. Monitoring and evaluation:

Since April 2019 to March 2020, the organization had 33 Weekly Review meetings and 12 Monthly Review Meeting headed by the project Director as a part of internal evaluation. The performance of each staff was assessed during the review meetings and new target was set every month. Those who performed well were appreciated while the under performers were strongly urged to increase their performance.

In the month of September External Evaluation was conducted by OSACS. The gaps were identified and urged the organization to take the measures to correct them.

PROGRAM ORGANISED

NUAKHAIBHETGHAT:

“NUAKHAI” was a famous festival of western Odisha. The name “NUAKHAI” itself clearly indicates its meaning that the people eat or consume the new or first harvest of their farm produce after offering it to their family deity or “Kul-devta”. So, TI, SAI organized a “BHETGHAT” for the HRGs on dt. 7th October 2019. HRGs from all over the field were invited to attend the party.

RESOURCE PERSONS SDMO Dr Sahu ,DPM, DAPCU, PO,TSU, counselor of Muribahal and Titilagarh ICTC,Satyajeeban ICTC, Prasant Ku Nidhi ICTC Kantabanji, Naresh Mishra LT Kantabanji Mr. Rajdip Patnaik, the legal advisor and advocate of Crisis Committee of TI, SAI, Mr. Ashok Ku. Hota Project Director, Dr Prakash Mohanty, and Mr. P Ojha etc. had accepted to be the distinguish guests of the day.

ACTIVITIES: Different games like singing, fashion show, musical chair were organized on the day. The winners were given away the prizes by the chief guest.

The Primary Objective Of The Programme was to organize the HRGs of different areas by providing them a common platform, to strengthen their community bond and empower them to stand together for their common cause.

Future expectation They expressed their gratitude to SAI and requested the project manager to organize such programme in the future. 53 HRGs (both MSMs and FSWs) had participated in the programme.

Achievement:

- ❖ Till March 2020 of the project year 708 MSM HRGs and 656 FSWs were have been registered and provided TI services.
- ❖ In the year 2019-20 ,10379 HRGs (both MSMs and FSWs) had been reached out through the one to one contact. Out of them 7714 HRGs were reached out through individual contact which was 70.25% of the target and 7611 HRGs were reached out through the regular contact.
- ❖ TI, SAI had organized 102 Hotspot Meetings in the operational area to share the information with the HRGs and those meetings were participated by 1021 HRGs. Apart from that 24 DIC meetings had been organized in the DIC to discuss on various issues related to the HRGs and those meetings were participated by382 HRGs representing the various hotspots.
- ❖ 2686 HRGs have been referred for STI treatment and 2009 HRGs have received the Treatment (STI-46, PT-216 & RMC-2188). The achievement was 81.57% against referrals.
- ❖ Out of 1412 referrals to ICTC for HIV testing 1250 HRGs had had their HIV testing which was 80% achievement of total referrals.
- ❖ 30PLHs were referred and linkage with the ART Centre, Balangir. 79(HRG & General) PLHs were referred to DIC (BNP+) and 8 PLHs to the CCC Balangir to receive the health care facility.
- ❖ 30 PLHs have been linkage with the MBPY scheme of the government and 4 PLHs linked up with DIC (BNP+), Balangir had received the amount of Rs.10,000/- each for their livelihood support .
- ❖ In f the project year 4 Stakeholder Meeting was organized with the local leaders and panchayat members. 82 members had participated in the meeting and put forward some valuable suggestions.
- ❖ In a year of TI services, 2628 HRGs had received individual counseling where as family counseling was 46
- ❖ TI, SAI organized 10 no. of in-house Training programme for the capacity building of the TI field level staff in the year 10 respectively. Project Manager, counselor and M &E cum accountant had received both induction and refresher training organized by OSACS/TSU.
- ❖ Altogether 28 Weekly Review Meetings and 12 Monthly Review Meetings headed by the PD were organized by TI, SAI.
