Message from Secretary

The year was full of excitement, enthusiasm, and togetherness yet challenging and definitely with shared understanding .I take this opportunity to thank each of my colleagues starting from the community organizer to the Project coordinator, members and well wishers of Social Awareness institution for their unconditional support, encouragement & cooperation. I look forward to the same passion to continue in coming days in achieving our mission.

It is our duty to thank the community, staff, governance structures, donors, corporates, governments, foundations, trusts and well wishers of Social Awareness Institution for the support and guidance extended to us. Let God Almighty bless each one who participated in this benevolent act of promoting well-being of the marginalized, restoring their rights and enabling us to progress in Nation Building exercise.

Social Awareness Institution systems, procedures, transparency, accountability and credibility are a model to voluntary sector as a whole. The H.R process is comparable and even better than corporates and could retain staff for long years, which provide for self-reliance in Human Resources. However, to reduce attrition is a challenge. SAI on the net is on top for various indicators and it becomes easy to develop development partnerships with various supporters, especially corporates through Corporate Social Responsibility. Succession continues to be haunting the organization and it is hoped that there shall be satisfactory and professional solutions for the same.

As this report details the various projects that we have undertaken during the year under review, I do not want to dwell more on them. One significant development this year was the understanding Social Awareness Institution has reached with the new projects Odisha ,Integrated Sanitation Improvement Project (OISIP) in Cuttack for the awareness on sanitation, health and hygienic in the Schools and community in the Cuttack city. The Odisha Water Supply and Sewerage Board (OWSSB) chose us after an elaborate process that involved submission of so many reports.

I express my sincere thanks to the supporting Agencies like Action Aids , Government of India and Govt of Odisha, Collector and District Magistrates, All 4 district for kind support an encouragement. I am also thankful to the district and block levels officials who extended their co-operations to the organization in implementing the programme. The staff of the organization worked in the most adverse condition to make all the programmes of the organization a success. I am thankful to them and expect that they will continue to work in the same vigor and enthusia in the future. I am thankful to them. Last, but not the list I extent my sincere thanks to all those faceless persons who associated themselves with the organization at some point of time for the cause of social development. This message, therefore, is earnestly a communication of gratitude to all those who have always been with us on this journey of SAI.

Ashok Kumar Hota
Secretary

Inside.....

- **Urban Primary Health centres (UPHC)**
- **Targeted Intervention(TI) Project FSWs and MSMs in Nuapada District**

Urban Primary Health centres (UPHC)

Two no's Urban Primary Health centres (UPHC) one is at Choudwar city of Choudwar NAC & another one is at Jagatpur city of Cuttack CMC of Cuttack district are running & managed by Social Awareness Institutions (SAI). In Key Focus Areas in PPP mode with the support of OSH&FW Society under National Health Mission (NUHM). It is the explicit mandate of the UPHC to provide priority services to urban poor people, especially those in most difficult circumstances such as street and slum children, the aged, disabled, single women, un-organized workers in unsafe occupations, and survivors of violence. The UPHC not only integrate RMNCH+A services but also integrate all vertical disease control programs and non-communicable diseases program. Both the UPHC also work and cover the preventive, promotive and curative services.

Objectives of UPHC

- To provide comprehensive primary health care to the urban population in general and particularly the urban poor.

- To achieve and maintain an acceptable standard of quality of care.
- To make the services more responsive and sensitive to the needs of the urban poor.

Scope of work in the UPHC

OPD timing & Consultation: OPD services are providing twice in day i.e. **(8.00 am to 11.00 am)** in morning and **(5.00 pm to 8.00 pm)** in the evening. Free medical consultation provide to the patients in the OPD. With Provision of two no's observation beds in the UPHC.

Pulse Polio Activity.

Rogi Kalyan Samiti(rks) GB/EC Meeting

On dated 26/06/2018 at 11.30am GB meeting was held at the meeting hall of UPHC kapaleswar chairmanship of corporator ward-9 karunakar saho. on that day dr. Rabindra Nath Dikshit (mo/ic),Anjan ku. mohapatra (prog.manager)sanjay ku. swain (pharmacist), staff nurse, It,hw (female) all ASHA & MAS were present. in every three months a RKS meeting held by the chairmanship of the corporator . on that day introduce ,transparency in management of funds , insure provision of drugs ,drinking water & cleanness of hospital .the activity of RKS to identifying the problems face by the patient in the hospital. prepare and approve plan of action to address the problems .

RUTINE IMMUNISATION ACTIVITY OF URBAN PHC , KAPALESWAR

ON THE SCHEDULE FIX ROUTINE IMMUNISATION WE PROCEED TO THE RI POINT AND CHECK DROP OUT AND CONTINUE CHILD VERIFICATION WITH HW (F),ASHA, MAS MEMBERS

On Every Wednesday Rutine immunisation held by the leadership of Rasmita Maharana(SN), HW (Female),Asha . Pulse Polio are also held at Kapaleswar UPHC ,On that program the above staffs are were monitoring & supervision properly in both transit and home visit area. They also supervise every polio booth and convicted to On dated 09/06/2018 at urban PHC Kapaleswar PMSMA was held by the Gynaecologist Dr. Kamdevsethy ,in that program 76 antenatal mother came to UPHC and get all the benefits like free blood test , free medicine with nutrition food. On this program all the HW(F) , ASHA ,MAS members were present.

On dated 05/08/2018 a leprosy campaign program was organised at Kapaleswar UPHC Nuasahi by HW(F) Sibani Acharya, ward no-17 , Sanjay Swain(pharmacist) , Lipsita Maharana(sn).on that program the members of MAS,ASHA & local peoples were present give them awareness and take oath by the present peoples.

Swachha Samudaya program was organised at ward no.-17,at summer season .in that

program M O I/c ,pharmacist , staff nurse and it were supervise the camp for smooth management.

Every month of 9th we conducting PMSMA program at UPHC ,kapaleswar where we treat high risk mother by our O&G specialist dr. kamadev sethy and give free medicines free tests with nutrition food.

STAFF MEETING

every month of last week a inter sector meeting of urban PHC kapaleswar held by the chairmanship of secretary "sai".on that day we discuss about qualitative, curative , quantitative of the patient along with cleanness, saniattion & hygine of the uphc

Targeted Intervention (TI) Project FSWs and MSMs in Nuapada District

Project Background

It is estimated that more than 90% of HIV transmission in India is related to unprotected sexual intercourse or sharing of injecting equipment between an infected and an uninfected individual. Not everyone in the population has the same risk of acquiring or transmitting HIV. Much of the

HIV transmission in India occurs within groups or networks of individuals who have higher levels of risk due to a higher number of sexual partners or the sharing of injection drug equipment. These high risk groups (HRGs) of individuals who are most at risk include:

- Female sex workers (FSWs)
- High-risk men who have sex with men (MSM), and trans-genders (TGs)
- Injecting drug users (IDUs)

The broader transmission of HIV beyond these HRGs often occurs through their sexual partners, who also have lower-risk sexual partners in the “general” population. For example, a client of a sex worker might also have a wife or other partner who is at risk of acquiring HIV from her higher-risk partner. Individuals who have sexual partners in the highest-risk groups and other partners are called a “bridge population”, because they form a transmission bridge from the HRG to the general population.

Programme Objective

To reduce the vulnerability of HIV infection among FSWs through awareness.

- To reduce STI/STD infections or disease among targeted population.
- Create an enabling environment among the community against HIV/AIDS

Project Strategies	Activity
<ul style="list-style-type: none"> • Community mobilization • Enabling environment • Health services • Condom promotion • Care and support to PLHA • Outreach communication 	<ul style="list-style-type: none"> Identification and registration of HRGs. Link Worker Scheme (LWS) Project

Target Area

A broad mapping was done in consultation with the District Health Unit, ICTCs, DSRC, RNTCP, CHCs and other secondary stake holders like PRI members, labour department, labour contractors etc. The 20 clusters were selected at an average of 5 villages in a cluster and 123 villages in total.

Human Resource Recruitment:

Recruitment for different posts was done as per the guidelines of NACO. There was no DRP, and M&E cum AA turnover. There were Zonal Supervisors turnover from 1st September-2018 in the project. Only two Cluster Link Workers were changed and for the posts for cluster link workers advertisements were done in the form posters in the villages. A panel consisting of OSACS officials/representatives of local health department and senior NGO staff selected the candidates through written and viva voce test

CAPACITY BUILDING:

Induction Training: It is a rule in Social Awareness Institution that induction training shall be given to the new staff within 15 days of their joining. In this context induction trainings were organized twice for the new CLWs in which they were oriented on Goal and objectives of SAI, its different policies, goal and objectives of Link Worker Scheme Project, OSACS, NACO and the basics of HIV, AIDS. They were also trained on the different reporting formats and their implications.

Refresher Training of Link Workers: Though there was no budget refresher training of Link Workers was organized when new CLW were recruited in which the old and new Link workers were capacitated on the behavior change communication including body mapping, condom Promotion, and other basic knowledge of Link Worker Scheme (LWS) Project.

BEHAVIOUR CHANGE COMMUNICATION:

The 20 Link Workers in 40 GPs of the 5 blocks of the district listed out the HRGs and vulnerable population in their respective categories. There after they prioritize them with respect to vulnerability and started interacting with them. Their communication processes with the target group was one to one counseling, one to group counseling. Different IEC materials like charts flip books, stories and models were used to communicate different messages on prevention, care and support. At the outset the link workers felt it difficult to discuss sexual issues especially with the FSWs later this was incorporated in their training and then they were empowered to help the target groups to assess their own risk, make risk reduction plans and motivated for correct and consistent use of condoms. Following are the achievements of the project:

COMMUNITY OUT REACH

To enable an enabling environment, the link workers, supervisors, DRPs discussed with different secondary stake holders like PRI members, ASHAs Anganwadi workers, village leaders, SHG members regarding the vulnerability of the area and worked out plans to protect people from HIV infection, ensure elimination and stigma and discrimination, clear the myths and misconceptions, community care and support of the infected and effected by HIV.

It was observed that there was wide acceptance of the HIV/AIDS intervention in the district from all sectors. Health care professionals have extended their hands to support the workers in carrying out their responsibility, guide them and welcome them in all activities of the health department.

Similarly our volunteer, workers participated in the Pallibashas, Gramsabhas, GP level meetings, organise special meetings with the PRI members to seek their attention towards the prevention, care and support of HI/AIDS. Their knowledge on HIV/AIDS increased and they realized the need of coordinated approach to fight against HIV/AIDS.

REFERRAL AND LINKAGES

After the vulnerability assessment of the target groups they were referred to different service delivery centers like ICTC, PHC, TB centers, ART center. 8969 persons were referred to ICTC out of which 8969 were tested and 10 were found positive from 2 no. Migrant, 1 no Trucker, 6 no Other vulnerable and 1 no ANC. All persons were referred to ART center, Balangir. All these PLHIVs were registered at the ART center and 10 of them have started taking ART drugs. 2116 persons were referred to the STI clinic, 151 No of screened for syphilis.

CONDOM PROMOTION

Correct and consistent use of condom plays an important role in HIV prevention. In Nuapada district, the majority of the HIV infection was through sexual route and hence condom promotion was given utmost importance in the project. The workers explained the benefits of condom use, correct way of using it by demonstrating condoms before the target groups both in one to one and group interactions. It was observed that the demand for condom has a steep increase after the Link worker Scheme intervention in the district. To make condom accessible and available, condom outlets were established in almost all the villages of the project area. 123 outlets have been established. The outlets were mainly with the ASHAs, AWWs, betel shops, dhabas, wine shops. Free Condoms were also distributed through the Link workers to HRG and demo station in the field & in condom depot. Social Marketing condom also selling to the target population for and in the programmes undertaken by the project. 5289 pieces of free condoms were distributed to the High risk target groups. Social marketing condoms were displayed and 2777 no pieces distributed to the target groups in different exhibition stalls to aware people about their availability.

PLHIV networking meeting:

The first Network of positives in Nuapada in the name of **JeevanDhara** was formed. Networking meeting for the people living with HIV/AIDS was organized 24th April-18 SAI Nuapada office, and 2nd networking meeting for the people living with HIV/AIDS was organized on date 11th February-2019 at SAI Project office, Khariar.

World AIDS Day:

World AIDS day was observed on the 1st December 2018 jointly by SAI, CHC, Khariar, Block administration, ICDS and other NGOs. The ABDO, Medical Officer in charge, CDPO and other block level officials were present. The rally was flagged off from Raja A.T. High School ground by the Medical Officer I/C and the Head Master of RATHS and moved throughout the town reciting slogan on HIV/AIDS. Cluster Link Workers, Volunteers, ASHA, AWW participated in the programme. Then the participants of the rally assembled at Raja A.T. High School where there was an awareness meeting, Speakers like Baruna Baghar, Counsellor, ICTC,

Medical Officer, CDPO, PHEO, BPM spoke on the different aspects of HIV/AIDS. Artists of KhariarSanskritikAnusthan presented a street lay on HIV/AIDS.

Aquizcompletition was held after the meeting in which persons given correct answers were given prizes.

Advocacy Meetings

Advocacy meetings at the block and GP level were conducted for a stigma free environment, early detection, 100% testing of pregnant mothers. Keeping in view of the expected draught situation it was anticipated that there will be more migration this year in comparison to the last years. Hence the PRI members were requested to implement the MGNREGS programme properly so that the migration will be less and to educate the migrants for prevention.

Health cum Testing camps

Health cum HIV screening camps were organized in remote places from where people find it very difficult to reach to the ICTC for HIV screening. Hence camps were being organized in consultation with the counselor, ICTC and with MHU team. It was observed that there were more than 100 testing in all the camps and also benefited a primary treatment such as sick, and check BP ,high passer Low passer&ect. This reflects the increase in the awareness of the people on HIV/AIDS.

Stigma Reduction Activities:

In a village in Bargaon GP of Sinapali block one ANC was found HIV positive. Her husband was also positive. But the husband refused to get ART services or give his wife any medicine to prevent the child from HIV infection. In spite of several attempts by the ICTC counselor, Zonal supervisor, Cluster Link Worker, they could not be registered. Rather the male threatened dare consequence if anybody visits their house. Thus a stigma reduction activity was planned in the village in which different stakeholders including health department staffs and PO TSU explained regarding PPTCT as a result of which the couple were registered with ART center, Balangiir.

MONITORING AND SUPERVISION:

Joint visits:

Joint visits were held with ICTC counselor, PO, TSU, staffs of TI NGO periodically for monitoring the progress of the project and avoid duplicity.

This too helps in identifying vulnerable population in the respective areas. There are clients of the HRGs of the TI who hail from the Link Worker Scheme Project area. Thus it helps us in prevention strategy.

KHADIAL MAHOTSAV

Date- 6th to 10th February-2019

Objectives:

- ❖ To disseminate information about STI/RTI/HIV /AIDS
- ❖ To inform the visitors about Link Worker Scheme Project
- ❖ To inform the people about different social security schemes of the government.
- ❖ To counsel vulnerable persons
- ❖ To refer and facilitate HIV testing.
- ❖ To distribute free condoms and promote social marketing condoms.
- ❖ To build the public speaking capacity of Link workers by taking group sessions

Activities

- Display of IEC material on STI/RTI/HIV/AIDS in the exhibition stall
- Distribution of IEC materials
- Focus group discussions
- Counselling
- HIV testing
- Referral
- Test the knowledge on HIV/AIDS through think and tick formats
- Distribution of free condoms
- Social marketing of different brands of condom

NGO Coordination Meeting

The NGO coordination meeting of TI &LWS Project Supported by OSACS was held today the 16th February 2019 at SAI project office Khariar, in which the following signatories were present:

Name Designation

1	GarudadhwaMahapatra	PO,TSU
2	BiswajitPadhi	PD Srusti TI
3	JitendraNathPattnaik	DRP SAI LWS
4	Ashok Kumar Hota	PD SAI TI
5	NamitaNayak	PM SAI TI
6	Sarat Kumar Nayak	Counsellor SAI TI
7	RashmiRanjanMallick	M&E SAI TI
8	Jaitram Sa	ORW SAI TI
9	SupriyaTondan	ORW SAI TI
10	BibhudattaPatra	M&E Srusti TI
11	HarekrushnaPanigrahi	M&E LWS SAI
12	BherirajBaksi	Z.S SAI LWS
13	DezalinBehera	Z.S SAI LWS

Discussion Topic

- . New key population Registration – There should be at least 30 % new registration of key population in T.I. Projects and the LWS project should plan to take new areas in place of areas covered completely.
- STI diagnosis – There should be 20% STI cases in a HRG area thus the projects should plan accordingly
- During the discussion another issue was highlighted that was free bus pass for PLHIV. In this point where the free transportation facility provided to PLHIV for attending ART center for taking ART medicines and treatment to PLHIV since 2007, all PLHIV are allowed free transportation facility by Govt. and private buses for traveling to ART center. But neither the OSACS nor the ART center provide the free bus pass to the PLHIV of Nuapada District.
- Analysis and discussion with both TI and LWS staff PO indicated the issue of Labour Card to the LWS project . LWS staff stated that the labour are facing many problem to get their daily wages. In this regards PO said to keep all the legal document and advocacy should be done with Labour officer..
- To link the Target groups with other social security schemes. Then LWS staff stated that one of the HRG was facing difficulty to get TB medicine from the ART center and CHC RNTCP center. And he said that the TB medicine is not available in ART center and RNTCP center. In this issue PO suggested that follow the proper way and keep proper document. Then we can inform it to the OSACS.

The quantitative achievement for the period Apr 2018-March 2019 is as follows:

Sl. No.	Typology	Total line-listed	Unique individuals (head-counts) contacted (through one-to-one or group sessions or condom or N/S only) during the period 1st April till end of reporting month	%	Unique individuals (head-counts) covered (through any clinical services) during the period 1st April till end of reporting month	%	Unique individuals tested for HIV only once during the period 1st April till end of reporting month	%	Unique individuals tested for HIV twice during the period 1st April till end of reporting month	%	Number of positive detected under LWS during the period 1st April till end of reporting month	Number of HIV +ve linked with ART	Number diagnosed & treated (Symptomatic cases) for STI during the period 1st April till end of reporting month	No of screened for syphilis	Uptake of condoms through Social Marketing	Total free condom distribution	Total no. of persons registered for ART & not yet started ART (Pre-	Total no. of persons are on ART (Alive) till the end of reporting month (cumulative)-irrespective of found positive through LWS or not

BEST PRACTICES

IEC stall in Mega exhibition cum festivals:

The project creates awareness in Mega exhibitions like KhadialMahotsav, block and district level MaragudaUtsavs where thousands of people come. Exhibition of posters on STI, RTI, HIV, Social Security Schemes were displayed, Individual counseling, group counseling, written quiz, STI treatment, HIV testing was done, Condoms were distributed. As in Nuapada district only one ICTC completely functional with laboratory technician of OSACS, most of the persons at risk can not test themselves for HIV infection.

Creation of cultural troupes from volunteers for mass awareness:

With an objective to reach maximum number of people with less expenditure, local troupes including local artists and volunteers. There was a one day orientation programme of the troupes, script were developed for street play and pala and the troupes performed in and around their gram panchayat as a result of which 56 artists were trained and the messages reached the people due to the use of local language in the programmes.

Training of adolescent girls on STI/RTI/HIV/AIDS

The adolescent girls are trained on STI/RT/HIV/AIDS in coordination with ICDS. Though Anganwadi workers should have meetings with adolescent girls every Saturday, they are not capable of educating the girls properly on these issues hence they welcome the staff of LWS project to train the adolescent girls. This activity could be done without incurring any expenditure.

IEC material in local language:

Wall writing in 7 important places was done in local language to bring mass awareness on HIV/AIDS.

CHALLENGES:

- Turnover of link workers
- Only one ICTC is functioning at Nuapada and its distance from Sinapali and Boden blocks is more than 100 KMs
- Late disbursement of fund from OSACS.

A REPORT ON OBSERVATION OF “WORLD KIDNEY DAY”

SAI-TI observed World TB Day-2019 at Warehouse, Jagatpur on 24th March'2019. Mr. Jogesh Kumar Rout, Zonal Manager of warehouse was presided the meeting and Mr. Srikanta Mohanty of SAI-TI joined as chief speaker in the observation ceremony. Welcome address given by Project Manager Pradip Kumar Swain and he described about World TB Day which celebrated all over the world on 24th March of each year in order to raise the public awareness about the about the devastating health, social and economic consequences of TB, and to step up efforts to end the global TB epidemic

Mr. Srikanta Mohanty more precisely describe about TB as world’s deadliest infectious killer. Near about 4500 people lose their lives by TB every day and close to 30,000 people fall ill with this preventable and curable disease. Global efforts to combat TB have saved an estimated 54 million lives since the year 2000 and reduced the TB mortality rate by 42%.

Project Manager high light the theme of World TB Day 2019 - ‘It’s time’ – means it’s the time we should act following:-

- scale up access to prevention and treatment;
- build accountability;
- ensure sufficient and sustainable financing including for research;
- promote an end to stigma and discrimination, and
- promote an equitable, rights-based and people-centered TB response.

Mr. Jogesh Kumar Rout, Zonal Manager of warehouse describes his experience that he has observed during dealing with labours since long years. He told that many laboura always ignore about their health problem due to earning money and get as much money for their family. As they are staying outside from their family they always try to income more and feed their family. Mr. Pradip Kumar Swain added that labours are usually taking their food from dhaba or nearby small hotels where they preferred spicy food and liquor. Most of the labours taken liquor and Ganjei as

they thought that by taking liquor and Ganjei they will work many times without pain and with concentration. He explained the negative aspect of taking liquor and Ganjei. He advised present labours to avoid these bad habits and suggested to avoid cold. He also advise them to take prevention by check-up periodically at health camp provides by SAI-TI. He also suggested to access the facilities provided by Urban PHC running by SAI which is situated at Jagatpur and Choudwar area of Cuttack district. .Ms. Jyotishree Das, M&E given vote of thanks to preset dignitaries and truckers.

World Aids Day

Background

World AIDS Day originated at the 1988 World Summit of Ministers of Health on Programmes for AIDS Prevention. Since then, every year United Nations agencies, governments and civil society join together to campaign around specific themes related to AIDS. World AIDS Day is held on the **1st December** each year and is an opportunity for people worldwide to unite in the fight against HIV, show their support for people living with HIV and to commemorate people who have died.

Today, scientific advances have been made in HIV treatment, there are laws to protect people living with HIV and we understand so much more about the condition. Despite this, people do not know the facts about how to protect themselves and others, and stigma and discrimination remain a reality for many people living with the condition. District Health Society, Cuttack and Social Awareness Institution (SAI) with support from OSACS observed World AIDS Day is designed to spread awareness and eradicate stigma associated with HIV/AIDS. The theme of World AIDS Day 2018 is **'Know Your Status'**.

Program Brief of World AIDS Day

Human Chain at City Hospital

In order to spread awareness against HIV/AIDS among the people, human chain has formed by the Social Awareness Institution with District Health Society, Cuttack. Dr Bibhuti Bhusan Nayak had inaugurated the programme at **City Hospital**. The programme was organized to generate awareness among the common people against the AIDS and to eradicate discrimination with the people suffering from HIV besides giving a message for building a positive environment. The message was OSACS envisions a state where every person living with HIV has access to quality care and is treated with dignity. Effective prevention, care and support for HIV/AIDS is possible

in an environment where human rights are respected and where those infected or affected by HIV/AIDS live a life without stigma and discrimination.

Mass Rally starting from City Hospital to CDM&PHO office on 1st December'2018 at 9 A.M

Cuttack City Hospital to District CDM&PHO Office braving the early morning chill, more than

hundreds of people including youths turned up for the Rally organized on the occasion of World AIDS Day. It was a rare spectacle as the residents of the Cuttack came together to extend support to the novel initiative of District Health Society, Cuttack and Social Awareness Institution(SAI) to spread awareness about the deadly disease. As this year's theme is 'Know Your Status', people vowed to get themselves tested for HIV in a bid to stop the disease from spreading. Dr.

Bibhuti Bhusan Nayak CDMPHO Cuttack flagged off the Rally in presence of Dr. Sanghamitra

Panda, Dr. Bhakta Mohan Swain ADPHO-TB Cuttack, Dr. Bijayalaxmi Nayak, Mrs Bidyutprava Ray DPC RNTCP, Mr Sudhansu Kumar Das Dist. PMDT & TB-HIV Coordinator, Mr. Mrutyunjya Mohanty of Aahana and SAI officials with lots of volunteers including MAS members, PLHIV and youths covered several prominent locations of Cuttack and garlanded to Gopabandhu statue at The Samaj office by many health

officials. Everybody needs to introspect and get them tested as it is this year's theme 'Know Your Status'. Everybody should run towards life and everybody should put health and wellness on top.

General Meeting on 1st December'2018 at 10.30 A.M at CDM&PHO office

The OSACS, Department of Health and Family Welfare, Govt of Odisha has been implementing IEC activities very effectively in urban area of Cuttack and observation of World AIDS Day is one of the effective tools to create awareness at all level.

At the outset Bibhuti Bhusan Nayak CDMPHO, Cuttack welcomed all the dignitaries and Participants. Briefing about importance of World AIDS Day, he described the theme of World AIDS Day 2018 “**Know Your Status**” also shared the program schedule of today’s program. All the dignitaries were welcomed with flower bookey. He invited all the dignitaries for lighting the lamp.

This program was intended to provide HIV-AIDS related knowledge and awareness to General Community, who would take this message aware about HIV/AIDS and related stigma. This is extremely necessary in the light of growing feminization of the HIV epidemic and its spread into general community and aware of the socio-cultural aspects existing therein. Objectives of the theme of AIDS Day 2018 .It is estimated that currently only 75 per cent of people with HIV know their status.

- Urge people to know their HIV infection status through testing, and to access HIV prevention, treatment and care services
- Urge policy-makers to promote a 'health for all' agenda for HIV and related health services, such as tuberculosis (TB), hepatitis and non-communicable diseases

SLOGANS ON AIDS DAY

- "HIV does not make people dangerous to know, so you can shake their hands and give them a hug: Heaven knows they need it"
- One in four people with HIV don't know they have it; know your risks= know your status

BLOOD DONATION CAMP

A Blood Donation Camp was organized in the eve of World Aids Days by Dist. Health Society & Social Awareness Institution (SAI) on 4th December 2018 at Jagatapur Urban Primary Health

Centre, Cuttack. A team of doctor and technicians of CRC Blood Bank, Cuttack present on the venue for collection of blood. The activity of blood donation was started by staffs of Social Awareness Institution & Dist. Health Society thereafter other Volunteer donors joined the event. There was an overwhelming response from youth and other donors a total of **30 units of Blood** were collected in the camp. Some of the donors who could not donate this time were assured for donation in the next camp. A Certificate of appreciation,

donation card, and refreshment was given to each donor as a token of gratitude.

Debate Competition: -

The debate competition was held at Mahanadi Vihar Women's College on 6th December 2018, Joint organised by District health Society, Social Awareness Institution and Mahanadi Vihar Women's

College. Dignitaries were 1. Dr. Bhakta Mohan Swain, ADPHO-TB, Cuttack 2. Ms. Jayasri Mohanty, Principal 3. Proff. Manaswini Mishra 4. Mita Pattanik 5. Anusuya Nada 6. Pranaya Manjari Mohanty 7. Sudhansu Kumar Das 8. Manmaya ku Mishra 9 Rakesh Choudhury, Mrutyunjaya Mohanty AAHANA and Pradip Kumar Swain, Srikanta Mahanty and Pankaja Rout of Social Awareness Institution (SAI) were presented. The participant had an interesting them were **Role of Youth in Prevention of HIV/AIDs** and

entertaining round of debate where they were asked some frequently asked questions and myths surrounding HIV/AIDS. The participant comprising mainly of young individuals debated enthusiastically. It served as an effective method to recapitulate the information served throughout the program as well as initiate discussions and debate on certain aspects of the disease. The prizes were given to winners.

REPORT ON OBSERVATION OF NATIONAL SAFETY DAY-2019

48th National Safety Day observed by SAI-TI, Cuttack at TSL, Choudwar with presence of all Targeted Intervention (Truckers) Project staffs including Project Manager Pradip Kumar Swain, Counsellor Srikanta Mohanty, M&E Jyotishree Das, Health Educators Himanshu Biswal, Minati Biswal and Peer Educator Sankar Pandey.

National Safety Day which was celebrated on 4th of March and will continue up to 10th March of the year. The theme of National Safety Day'2019 was "Cultivate and Sustain a Safety Culture for Building Nation". National Safety Day/Week was celebrated across the nation by industries, trade unions, regulatory agencies and NGOs. A series of campaigns were conducted across the country to increase safety awareness and reducing accidents. The campaign majorly aimed at promoting safety at workplace and outside workplace. Every work place and outside there has to be provisioned for awareness regarding safety majors.

Project Manager of SAI-TI, Cuttack explained in brief about importance of observing the specific day. He also explained how this safety related to the life risk of truckers those evolving with high risk behaviors and having unsafe sex. Project Manager advised to take prevention from accident

before starting for journey and always maintain the vehicle to avoid accident and breakdown. He also explained to available truckers about co-relation between their vehicle and body. He told that as the vehicle required maintenance precaution and regular check-up for long distance travel, same way we must have to make periodically check status by which one can provide treatment for recovery of this epidemic virus. They were advised to wear safety belt while driving, use indicator before turn from left to right, right to left or while for straight way at junction point. PM also told them as two wheeler drivers wear helmet to prevent major damage of their head while driving on road, similarly truckers must use condom while they engage sexual activities with someone except their regular partner. Some case regular partner may engage with some other positive people and it lead to transfer of virus to his or her partner.

Srikanta Mohanty, Counsellor of SAI-TI, Cuttack briefly describe about HIV/AIDS and how and in which way it transfer to human body. He also explained in brief about the use of condom to avoid STI deases. Also explained about the benefits of comdom during sex.

Lastly Jyotishree Das, M&E of SAI-TI gave vote of thanks to present truckers and stake holders.

Observation of No Smoking Days

Targeted Intervention Project (SAI-TI), Cuttack observed No Smoking Day on 13th March'2019 at TSL Manguli where 40 to 50 long distance truckers along with some stake holders were present. Day was celebrated as an awareness program in almost all over the world against tobacco consumption among the people.

No Smoking Day is observed every year on the second Wednesday of March, to encourage people over the world to quit smoking. The main purpose of this day is to spread awareness about the harmful health effects of tobacco consumption through cigarette and other tobacco products by provides some messages and IEC to help smokers to get rid from the bad habit of smoking.

No Smoking Day is observed to caution those people who have got addicted to smoking. Also referred on par with World No Tobacco Day, it is a major health awareness day celebrated on an

annual basis by people in United Kingdom. Ever since it was first observed on the first Wednesday of March in 1984, the event was continued year after year but got shifted on the second Wednesday of March every year. The most iconic feature of this day is that it is associated with a healthy theme based upon which the concluding events are performed.

Numerous events are associated with No Smoking Day because of which maximum popularity has been generated in recent times. For instance, the latest person to preside over the board was none other than popular TV personality Duncan Bannatyne OBE. Though he was a smoker before, he turned out to be an active anti-smoking campaigner owing to the multiple health risks about which he became aware of. Meanwhile, increasing number of funds is received each year by BHF towards organizing active campaigns for the benefit of people so that they could stay away from smoking in a perfect manner.

SAI-TI team arranged to organise the event to conduct the congregant event by celebrating No smoking Day on 13th of March 2018 at Manguli TSL area where 40 to 50 long distance truckers along with some stake holders were present and share their experience. Project Manager of SAI-Tim Cuttack told about the importance of the day. He advised all truckers and stake holders to quit smoking as well as chewing tobacco product on the very day though it was suggested to quit smoking on any day of the year. He also briefly explained about the causes that happened with smoking. Counsellor of SAI-TI project Mr. Srikanta Mohanty explained briefly about the importance of celebration the day and its effects.. He scientifically and very simply describes the effects of smoking and requested all participants to choose the day for quit the habits. He then advised the participants to fixed a date for quit their habits and must intimate the date of quit to all friends and relatives so that they all should cooperate for the purpose.

Mr. Anjan Kumar Mahapatra, External Stakeholder of the project cum Member of Truck Owner Association of Manguli area participated in the meeting as chief guest and share his experience working with several truck drivers and helpers who were addicted with the very harmful habit and spoil their valuable life. He proposed to placed notice at the TSL area with NO Smoking Zone. He also told that the same notice he will also placed at their association office to create more awareness. He requested to Project Manager to stick some posters regarding the affect of the habits to create more sensitized effect to the society.

Ms. Jyotishree Das M&E of SAI-TI, Cuttack gave vote of thanks to all guest and participants present in the meeting.

Report on Observation of National Safety Days

Staff capacity building

Our first aim to capacity building of project staff in the subject matter with clear understanding of do s & don'ts .Give much more emphasize on team building so that staff can perform in a better way that they empathically acknowledge the scheduled activities that it is great opportunity for us that we all are going to addressed our city's lifelong sanitation issues. Take the assignment as a passion rather than a task. In the project period we would introduce a joyful working culture so that staff will perform without any tension n quarterly basis there is a couching & counselling to all staff in individually so that they can share their internal issues which they can't share in a common platform. Staff performance appraisal in every Six Month would be take place. Just starting after the project on 11th January E&PMC officials provided one days training programme

regarding the project. From organization side orientation provided to all staff regarding job & description, community mobilisation & how to grounding the project in the field.

Project Management Unit (PMU)

A project management unit (PMU) has established in the project office. Team leader provide management support to the project teams and will facilitate a detailed strategy and the implementation of the institutional strengthening component. A participatory approach will be adapted to execution of scheduled activity. In every month last week team leader present physical & financial progress of the current month & upcoming month action plan against the SAI management. The meeting would be chaired by SAI chief functionary. The PMU main objective is to ensure the quality & eradicate the bottleneck. In the PMU meeting review the progress against planned activities. In the project management unit (PMU) chairman, secretary of SAI & all project staffs are the members.

Office set-up

The Social Awareness Institution has been set up the office at central location of Mahanadivihar near Mangala Mandir square in front of HDFC Bank. The “JICA assisted OISIP (SD&PA) package no-3, Kathajodi cluster” project office address is as follows At- MahanadiVihar, plot no-628, Po-Nayabazar, Cuttack-753004. The office having 1000 Square feet in centre place of project area with all the required facilities such as computers, internet connection, furniture, chairs, tables, printers, scanner, Fan & Camera etc. The Project office has started on 9th January 2019.

Conclusion:

Now the millennium city starts its journey to free from griminess. In the past so many institutions attempt to address the sanitation issues through awareness but only awareness is insufficient. For the first time in the history of Cuttack not only a massive construction work but also Social Development & Public Awareness work is going on simultaneously through JICA

assisted OISIP. Every city dwellers dream comes to reality by this noble project. But for SAI the issue is very close to our heart we would take the opportunity as a passion rather than an assignment.

FGD with AWW, ASHA, MAS and Community

As per the Activity schedule Selection of the school was the first month activity. Before selection of school there is a short orientation provided to all staff regarding school selection process. Just after the orientation staffs are fixed the selection criteria, and developed the data collection format.

Enabling Partner Community to revive ecology-based sustainable livelihood and assert labour Rights

(i) Land, Forest, water and Commons:

Awareness has been created about land rights and forest rights in all operational villages.

Homestead Land was allotted to 122 members for construction of house under different schemes but 30 male and 12 females received land title of 4 decimals each. 10 community member received title for agriculture land amounting to A14.6C. Till date no individual title was given to any Non-tribal forest dweller. The issue was discussed with the SDLC and the Collector. Rallies and protests were done by the people but till date their claim was unheard. It has been decided to organize a state level congregation and fight for the rights of the NTFD of Odisha.

44 Forest Right Committees were awaked on the Forest Rights Act and the procedures of getting rights under the act 1551 males and 20 female submitted individual claims.119 male and 10 female received titles. Four gramsabhas were organized and the Joint verification reports were approved.

5 numbers of trainings were organized on ecological farming like organic manuring, pesticides, procurement of seeds, and preservation of seeds.167 males and 83 females attended the trainings. Village level meetings were organized and the farmers were sensitized on organic farming and 9439 farmers are practicing organic farming. During the last 15 years due to the publicity people succumbed to the craze of immediate hike in production and had left cultivating traditional seeds.

But continuous draught for four years opened the eyes of the farmers when they observed that farmers cultivating traditional seeds got some yield from their land. Trainings, meeting and practical experience helped the farmers understand the benefits of ecological farming and were interested to cultivate indigenous seeds. Traditional paddy seeds were collected from “DesibihanSurakshaManch” and were distributed among the 336 farmers through 28 Seed banks. 4582 farmers cultivated traditionally and were quite happy getting more than the hybrid seeds without spending money for chemical fertilizer and pesticides. The farmers went on a exposure visit and learnt the benefits of organic farming and the way farmers of Bargarh district have preserved more than 100 varieties of paddy seeds. The farmers of Nuapada district then got together in the “DesiChasiSammelan” organized at Khariar. Farmers exchanged experience and success stories and then exchanged traditional seeds.

Labour and Livelihood Rights with focus on Women workers

People of all the operational villages were sensitized on a regular basis on the labour rights and entitlements. Staff and volunteers support the workers for filing application for job under MGNREGS, getting pluckers' card for kendu leaf plucking, linkage with Welfare boards for construction workers as well as kenduleafpluckers for different benefits under the welfare boards.

The staff, volunteers and labour leaders were trained on MGNREGS, RTI and other entitlements. 25 cases were taken up for the payment of wages under MGNREGS out of which 16 were solved and payments were

released.

342 males and 120 females attended skill building training organised at the GP headquarters by the government.

The issues of the workers had been resolved by facilitating public hearing advocacy with the government offices, media advocacy.

42 Organisations of unorganised workers was formed from village level, block level and district level. The labour leaders sit quarterly to discuss issues of labours and accordingly steps were taken.

Livelihoods:

44 male and 52 females were trained on bamboo craft. They were trained in two places for 8 days each on design development. The bamboo craft artisans were facing problem in getting bamboo and hence forest department was requested to provide seedlings which were later planted by the paharia community. After the training the paharias(bamboo craft artisans) learnt to make decorative and daily use items which increased their income by less input of bamboo.

Kendu leaf cards were given in 5 villages where the pluckers were earlier selling through other villages. 106 male and 341 females got new cards in 2018 and earned Rs.1468770.00. The pluckers increased their income and also got benefits under the social benefit schemes. They will be getting bonus in the next year.

(ii) Women's Rights, Women & Property

Perspective building of team and leaders was organized for three days in which 39 women leaders from different blocks participated. They were trained on the different legal rights of the women focusing on the single women including right to property, right to sexual health and the structures of the government to support the women to lead a dignified life. Women collectives were formed to address the issues of the women at the community level. Issues like increase in widow pension, financial support to single women for income generation activities, homestead land for single women.

The staff and leaders are members of the Regional Women Forum and the state level Single women Forum. One of the members has become the secretary of the state level organization. Issues of single women were identified at the district level single women convention and the team submitted a charter of demands to the collector, Nuapada.

(iii) Public Education and Child Rights

- *Along with strengthening public education & making govt schools functional, please include interventions related to other childrights like survival, development, protection, participation and any innovative work with children focusing on girl children, children in difficult circumstances such as NT/DNT children, children of seasonal migrants, street children and others.*
- *Out of School children enrolled in schools (girls, boys), SMC members trained on RTE and other CR provisions, how government schools were strengthened, new ICDS centres opened, bonded children, child labour rescued, scholarships accessed, child marriages prevented, any advocacy efforts on public education, studies or research carried out.*

Child clubs were formed in 34 villages and regular meetings were held with the members in which children were awaked about their rights like survival, development, protection, participation.

Block level trainings were organized in all blocks in which mothers were trained on the ICDS schemes, regular monitoring of the AWC. 8 malnourished children were referred to the NRC and were treated. AWC centers were made functional through regular community monitoring.

Children festivals and child parliaments were organized to increase the awareness of the children, parents and teachers about child rights, school safety, proper monitoring of MDM. These

programmes highlighted the issues of the children and enable them to raise voice against any injustice to them.

PRI, PTA, MTA, School cabinet were trained and sensitized on right to education and their roles and responsibilities. 72 schools on the operational area were functional in which child participation in the SMC in ensured, proper monitoring of MDM is done.

In all the 54 villages meetings were organized on prevention of early marriage. People took oath for preventing child marriage. Two communities resolved in their caste based organisations to prevent child marriage.

Critical reflections and lessons learned: what worked well, what didn't? If didn't work well, what could be a different strategy? How did you overcome risks?

The greatest challenge is the delay in payment of wages under MGNREGS. The work is measured in piece basis but payment is made on daily wage basis for which proper muster role is not maintained resulting in delay in payment. Advocacy required at the national level for the payment of wages on piece work basis.

Fund Raising efforts, engagement with Corporates

IMPLEMENTATION OF SWACHHA BHARAT MISSION (G) PROGRAMME

Supported by RWS&S

SAI has taken 5 Blocks of Cuttack district at where SAI engaged Block Coordinator and Cluster Coordinator to assist towards implementation of Swachh Bharat Mission (G) and National Rural Drinking Water programme under WSSO. The names of those Blocks are follows:-

Sl. No.	Name of Block	No. of Block Coordinator engaged	No. of Cluster Coordinator engaged
01)	Cuttack Sadar Block	01	01
02)	Tangi-Choudwar Block	01	01
03)	Baranga Block	01	01
04)	Mahanga Block	01	02

05)	Nischintakoili Block	01	01
-----	----------------------	----	----

With implementing the above mentioned programme in the blocks the following activities are undertaken by the Block Coordinator of the concerned block.

- Block Coordinators will help the village community in formation of VWSCs in all villages.
- Taking up awareness generation and development communication activities among the G.P and VWSC members and the village community.
- Conducting training courses on various aspects of water and sanitation at block and village level for members of VWSCs and GPs and other grassroots level workers / Sanjog Partners in the village (ASHA worker, Anganwadi worker, School teachers, SHGs Mahila and Yuvak Mandals etc.). This can be through classroom training, hands on support in village and exposure visit.
- Preparing an Annual activities Calendar mainly focusing on IEC and training activities and will be responsible for its implementation.
- Helping the GPs/VWSCs in baseline surveys, sanitary survey of drinking water sources and system falling within their jurisdiction.
- Helping the village community/VWSCs/GPs in preparation of their village Action Plan and its approval by the Gram Sabha.
- Guiding VWSCs in implementing and monitoring the works relating to water supply schemes and sanitation as envisaged in the village action plan
- Coordination and follow-up with grassroots level workers trained in water quality monitoring and surveillance and ensuring that they take up water quality testing and surveillance activities.
- Regularly interacting with Panchayats, ASHA workers, Anganwadi workers, Self Help Groups, Mahila and Yuvak Mandals to ensure that issues relating to water supply, quality and sanitation get regular attention.
- Visiting schools to deliver talk to sensitise teachers and students to adopt improved hygiene practices, improve sanitation and safe handling of water to keep it potable.
- Helping in conducting social Audits.
- Coordinating with water quality testing laboratories for water quality testing, reporting to villages, cautioning the GPs/VWSCs/PHEDs to take effective steps for maintaining portability and guiding on remedial steps.
- Assisting in gathering information for updating habitation status on the IMIS.
- Helping the Gram Sabha in selecting/Electing VWSCs in all villages in the block, opening Bank Account etc. coordinating with PHED officer's in-charge of rural water supply and sanitation.
- Distribution of chlorine tablets if so decided by the Public Health Authorities.

- Coordinating and exchange of information to and from the block level engineer to the block level health officer for taking corrective action in cases of incidence of water and sanitation related disease.
- Documenting case studies and success stories from villages
- Handling day-to-day accounting of BRC expenditure.
-

- Documenting case studies and success stories from villages.

Jan Shikshan Sansthan, Balangiri

Vocational Courses conducted

The JSS Balangiri is endeavoring to take up programmes with the objectives of achieving development in socio-economic, cultural and educational fields. During the period, as many as 80nos. of training programs which includes curriculum under NIFT, DAE, and MES course were conducted. Lectures, distribution of pamphlets, street plays, International Day celebrations, competitions and participating in exhibitions is always a part and parcel of the training programme which enable the beneficiaries to widen the range of knowledge .The total number of 2000 beneficiaries were covered under the programme The target groups for JSS ,Balangir are clearly given in the guidelines issued by the Govt. of India. They include socio-economically backward and educationally disadvantaged groups of urban/rural population such as men, women and youth, employed, self-employed, neo-literates, prospective workers and their family members as well as unemployed youth. However, priority to be given is to adult neo-literates, semi-literates, SC, ST, Women and Girls, oppressed, migrants, slum/pavement dwellers and working children. In course of time, a number of administrative orders have been issued by the Ministry of Human Resource Development with regard to the target groups. Accordingly the priority target groups are SC, ST, OBC, Women and Muslim minorities. From the below table it is clear that females have been given priority in the vocational skill development programmes organized by the JSS Balangir . However, it may be appropriate that coverage is consistently increased year after year instead of more coverage ..

Current set-up (Staff position)

Sl. No.	Name of the Person	Designation	Regular/ Contract

Specialisation of JSS in the vocational training programmes(s) may be indicated in bullets

- Skill development training programmes to the needy, deprived and under privileged sections of the society for augmenting their income and to improve their quality of life.
- Training programmes in skill formation and skill up gradation for potential youths, dependents of workers, migrants , men and women belonging to unorganized and informal sector, slum workers etc. in both urban/rural areas.
- Promote Life Enrichment activities by developing their knowledge on day to day affairs pertaining to health, population education, environmental sanitation, HIV/AIDS, Adolescent health, mother and child care etc.

Rajib Gandhi Scheme for Empowerment of Adolescent Girls (SABLA)

The Ministry of Women and child development government of india in the year 2000 came up with scheme called Kishori Shakti Yojana (KSY) using the infrastructure of integrated child development services (ICDS). The Objective of the scheme were to improve the nutrition and health status of girls in the age group of 11-18 years as well as to equip them to improve and upgrade their home based and vocational skills and promote their overall development. Rajib Gandhi Scheme for Empowerment of Adolescent Girls (SABLA) would be implemented using the platform of Integrated child Development Services Scheme through Anganwadi Centre.

Objective:-

- (i) Enable the Adolescent Girls for Self Development and Empowerment .
 - (ii) Improve their Nutrition and health Status.
 - (iii) Promote Awareness about Health, Hygiene, Nutrition, Adolescent Reproductive and Sexual Health and Family and Child Care.
 - (iv) Upgrade Their home based skill, Life Skill and tie up with National Skill Development Programme for Vocational Skills.
 - (v) Mainstream out of school Adolescents Girls in to Formal and Non Formal Education.
 - (vi) Provide Information, Guidance about existing public service Such as:- Bank, Police Station, Post Office, Medical.
- SAI Conducting SABLA 4 Nos Block in Cuttack District Such as:- Niali, Kantapada, Tigiria, Athagarh in this work details given below:-
